SECTION-B

VI) Read the following passage carefully and answer the questions that follow: 5x1=5

The capitalist system of society does not foster healthy relations among human beings. A few people own all the means of production and others-though nominally few have to sell their labour under conditions imposed upon them. The emphasis of capitalism being on the supreme importance of material wealth the intensity of its appeal is to the acquisitive intensity. It promotes worship of economic power with little regard to the means employed for its acquisition and the end that it serves. By its exploitation of human beings to the limits of endurance its concentration is on the largest profit rather than maximum production. Thus the division of human family is done on the basis of economic circumstance. All this is injurious to division of human dignity. And when the harrowed poor turn to the founders of religion for succor, they rather offer a subtle defense for the established order. They promise future happiness for their present suffering and conjure up visions of paradise to redress the balance to soothe the suffering and the revolt of the tortured men. The system imposes injustice, the religion justifies it.

Questions:

1. Does the capital system maintain healthy relations?

A: _____

2. Which promotes the worship of economic power?

A: _____

3. On what basis is the division of human family done?

A: _____

4. What is the antonym for 'impose' ?

A: _____

5. What justifies the injustice imposed by the system?

A: _____

VII) Read the following passage carefully and answer the questions that follow: 5x1=5

It is sad, but true, that many people focus on negative things. On the other hand, bees are very optimistic. You'll never find a bee saying, "Oh, I'd like to get some nectar, but that flower has too many thorns!" Forget it - the bees look right past the thorns and go straight to the flower. Instead of focusing on the negative, they're always looking for that which is sweet. Being positive also helps bees stay persistent when looking for nectar. Sometimes they have to travel for miles to find a flower full of nectar. They also have to deal with people shooing them away from their gardens. But have you noticed that they always come right back? They're focused on their mission of gathering sweet nectar, not the obstacles that stand in their way. Like the bees, you should also be optimistic. Your attitude to others is like a witness. You will always go after that which is positive and be a sweet example to everyone around you.

Questions:

1. What is the mission of the bees?

A: _____

2. What do people focus on?

A: _____

3. What do help the bees to stay persistent?

A: _____

4. Find the word in the passage which means 'continuing'.

A: _____

5. Write the antonym of the word 'optimistic'
