# PRACTICE PAPER-4

## SR ENGLISH - Section B & C

### SECTION-B

VI) Read the passage given below. Answer the questions that follow:

5 x 1 = 5 M

Light enters the eye by refracting, or bending, as it passes through the cornea. Light rays then pass through the opening into the eye known as the pupil. The pupil size is controlled by a muscle known as the iris. The pupil becomes smaller when in a bright area and larger in dark area. After leaving the pupil, light rays are refracted once again as they pass through the convex lens of eye. Light rays continue travelling through a jelly-like material called the vitreous humor. An upside down image is formed on the back of the eye known as the retina. Cone cells on the retina interpret the colour of the image and rod cells interpret the black and white colours. Lastly, the image is taken to the brain for the image to be seen correctly.

#### Questions:

1. What is the opening into the eye called?

A: \_\_\_\_\_

2. What is the muscle that controls the size of the pupil?

A: \_\_\_\_\_

3. State true or false:

The pupil becomes smaller in dark areas.

A: \_\_\_\_\_

4. Write the antonym of 'convex'.

A: \_\_\_\_\_

5. Where does an upside down image form in the eye?

A: \_\_\_\_\_

**VII) Read the following passage carefully and answer the questions that follow: 5 x 1 = 5 M**

Jackson's Island was a small island in the Mississippi river. It was about three miles south of St. Petersburg. No one lived on the island. 'Huckleberry Finn can come with us too,' said Tom, 'Remember Joe don't tell your mother, father or anyone about our adventure. Go home and bring some food. We'll meet here at midnight.' Tom and Joe were excited. At midnight the three boys met on the river.

Tom brought meat to eat. Joe brought some bread and Huck brought a frying pan. They found a small raft and they went down the river to Jackson's Island. When they arrived on the island they made a fire and cooked some meat.

'This is fun!' said Joe. 'We' re free and we can do everything we want!' said Tom. 'What do pirates do?' asked Huck. 'They go on ships and take money. Then they go to an island and hide it in a safe place,' said Tom. The three boys were happy and slept under the stars.

**Questions:**

1. Where is Jackson's Island?

A: \_\_\_\_\_

2. Who went to Jackson's Island?

A: \_\_\_\_\_

3. Why did they go to Jackson's Island?

A: \_\_\_\_\_

4. What do the pirates do?

A: \_\_\_\_\_

5. Raft is a.....

a. a thick rope    b. a small round shaped boat    c. a flat structure of wood used as a boat

A: \_\_\_\_\_

VIII) Study the advertisement and answer the questions that follow. 5 x 1 = 5 M

**"Swachhata Hi Sewa"**  
Swachhata Pakhwada  
15 September - 02 October 2018

एक सफ़ेद सभ्यता ही सौंदर्य

Let us create an environment of cleanliness in the entire nation with "Swachhata Hi Sewa" drive.  
- Narendra Modi

## Join Hands with Railways in Cleanliness Drive

**Community Day, 22<sup>nd</sup> September 2018... be the change**

Timing : From 9.00 A.M. onwards

Indian Railways appeals to all People, NGOs and Charitable Trusts to participate in this cleanliness drive.  
For your Shramdaan, please contact Station Director or Station Manager of the nearest Railway Station.

Always throw litter in dustbins  
Always use toilets at station premises  
Do not spit on platform & station premises  
Do not throw paper, cigarette butts, etc. in bio-toilet

**Indian Railways**

### QUESTIONS:

1. What is the advertisement about?

A: \_\_\_\_\_

2. Who has issued this advertisement?

A: \_\_\_\_\_

3. When was the Cleanliness Drive conducted?

A: \_\_\_\_\_

4. Who are to be contracted for our shramdaan?

A: \_\_\_\_\_

5. Write the noun form of 'charitable'.

A: \_\_\_\_\_

IX) The following table shows the best and worst foods for health.

5 x 1 = 5 M

# The 10 Best and Worst Foods for Healthy and Longevity

## The Best:

**Green Leafy Vegetables**  
(e.g. kale, collard greens,  
mustard greens, spinach,

lettuce)  
**Non-Leafy Cruciferous  
Vegetables** (e.g. broccoli,  
cauliflower, Brussels  
sprouts, cabbage)

**Berries**

**Beans**

**Mushrooms**

**Onions**

**Seeds**(eg.g flax, chia, hemp,  
sesame, sunflower, pumpkin)

**Nuts** (e.g.walnuts, pistachios,  
pine nuts, almonds)

**Tomatoes**

**Pomegranates**

## The Worst:

**Sweetened Dairy Products**  
(e.g. ice cream, low-fat ice  
cream, frozen yogurt)

**Trans Fat Containing  
Foods** (e.g.stick margarine,  
shortening, fast foods,  
commercial baked goods)

**Donuts**

**Sausage, Hot Dogs, and  
Luncheon Meats**

**Smoked Meat, Barbecued  
Meat and conventionally-  
Raised Red Meat**

**Fried Foods including  
Potato Chips and French Fries**

**Highly-salted Foods**

**Soda**

**White Sugar**

**White Flour**

**Dr. Fuhrman**

2013 Joel Fuhrman, M.D. [www.Dr.Fuhrman.com](http://www.Dr.Fuhrman.com) 1-800-474-WELL (9355)

1. Give examples of foods having trans-fats in them?

A: \_\_\_\_\_

2. Are sesame and sunflower seeds good for health?

A: \_\_\_\_\_

3. State true or false.Cauliflower and broccoli cause damage to our health.

A: \_\_\_\_\_

4. Write down two white coloured foods from the table which are not good for our health?

A: \_\_\_\_\_

5. What does longevity in this table mean?

A: \_\_\_\_\_

**SECTION-C**

- X) Your cousin is missing from home. Write a letter to the Sub-Inspector of Police of your locality, requesting him to trace your cousin. Give all relevant details that may help the police department. 1x5=5M

OR

You have witnessed the impact of evaluation through grades, instead of marks in the Board of Intermediate Education exam results. Write a letter to your younger cousin advising him how to deal with the changes.

- XI) Write a short paragraph of about 8 lines describing the process 1x5=5M

Describe the process of making red bricks.

OR

Describe the process of casting your vote in elections.

- XII) Prepare a Resume based on the information given below. 1x5=5M

Priya Construction Company requires store keeper with attractive salary. Candidates with Intermediate and 2 years of project experience may apply for the post. Send your resume to Priya Construction Company, Boyapalem Village, Yedlapadu Mandal, Guntur (Dt)

**XIII) Fill in the form based on the following information.****10x½=5M**

Ms.P.Manvitha of Intermediate 1 year studying in Govt. Junior College for girls, Warangal, wants to apply for Student Concessional Bus Pass. Her date of birth is 12-08-2003. Her father's name is P. Ambarish. She wants to travel from her native village Shayampet to Warangal everyday. The principal of her college certified her admission (No. 398/11) on 10.06.19. (Tick the relevant type of Bus pass) (No.7)

Or

**Imagine you are selected for an interview to get a job in a software company. Write a dialogue between yourself and the interviewer.**

**XV) Read the following passage and make notes: 1x5=5M**

The economic system of any country is largely dependent upon the efficiency of its transport system. Without the help of a good transport system, the expansion in national and international trade would never take place. Broadly, the means of transport both for purposes of trade and social activity can be classified into three main divisions: land, water and air. We are, here, concerned with transport for trade. Of all the forms of transport, road transport has shown the greatest growth in recent years. Road transport is also used as a complementary means of transport. Road are indispensable links for carrying goods and people to and from railway stations, ports and airports.

Transport by road may be both vehicular and non vehicular. Non vehicular transportation includes both animal and man. Animals such as horse, mules and yaks are frequently used for carrying goods and passengers in hilly areas. Camel is the only means of transport in desert areas. Man is also sometimes used to carry goods. In hilly areas, porters and coolies carry goods on their backs and heads. This type of transport is generally used when animals, carts or vehicles cannot be used. Vehicular transport in developing countries includes the ancient bullock carts, as well as the modern automobiles. The invention of the automobiles has been of great significance to modern industry and commerce because of their high speed and low cost per kilometre. The introduction of the railways have been vital in the growth of industrialization. Railways are useful in carrying heavy and bulky goods over long distances. They are especially favoured because, unlike other modes of transport, they are unaffected by weather conditions.

Water transport is one of the oldest forms of cargo transport. Though it is slow, it is the cheapest form of transport. Water transport includes inland transport and ocean transport. Inland waterways are rivers and canals. While rivers are "naturally" created, canals are artificial waterways. Inland waterways are not always reliable. Sometimes rivers change their course abruptly, which may cause dislocation of traffic. In times of drought they may run dry. Ocean or sea transport is very important for the growth of foreign trade of any country, especially as it is cheaper than air transport. It is particularly useful for carrying bulky goods over long distances, especially when time is not the essential factor.

The greatest advantage of air transport is that it has reduced the time and distance barrier to greater extent. However, air transport is the costliest means of transport because of the high cost of planes, their operation and maintenance. It is generally used rather sparingly for carrying light freight.

**XVI) Match the Words with their meanings/definitions.****5x1=5M****Column 'A'****Column 'B'**

# ANSWERS

VI) Read the passage given below. Answer the questions that follow:

5 x 1 = 5 M

Light enters the eye by refracting, or bending, as it passes through the cornea. Light rays then pass through the opening into the eye known as the pupil. The pupil size is controlled by a muscle known as the iris. The pupil becomes smaller when in a bright area and larger in dark area. After leaving the pupil, light rays are refracted once again as they pass through the convex lens of eye. Light rays continue travelling through a jelly-like material called the vitreous humor. An upside down image is formed on the back of the eye known as the retina. Cone cells on the retina interpret the colour of the image and rod cells interpret the black and white colours. Lastly, the image is taken to the brain for the image to be seen correctly.

## Questions:

1. What is the opening into the eye called?

A: The pupil

2. What is the muscle that controls the size of the pupil?

A: The iris

3. State true or false: The pupil becomes smaller in dark areas.

A: False

4. Write the antonym of 'convex'.

A: Concave

5. Where does an upside down image form in the eye?

A: The retina

**VII) Read the following passage carefully and answer the questions that follow: 5 x 1 = 5 M**

Jackson's Island was a small island in the Mississippi river. It was about three miles south of St. Petersburg. No one lived on the island. 'Huckleberry Finn can come with us too,' said Tom, 'Remember Joe don't tell your mother, father or anyone about our adventure. Go home and bring some food. We'll meet here at midnight.' Tom and Joe were excited. At midnight the three boys met on the river.

Tom brought meat to eat. Joe brought some bread and Huck brought a frying pan. They found a small raft and they went down the river to Jackson's Island. When they arrived on the island they made a fire and cooked some meat.

'This is fun!' said Joe. 'We' re free and we can do everything we want!' said Tom. 'What do pirates do?' asked Huck. 'They go on ships and take money. Then they go to an island and hide it in a safe place, ' said Tom. The three boys were happy and slept under the stars.

**Questions:****1. Where is Jackson's Island?**

**A:** It is in the Mississippi river, about threemiles south of St.Petersburg

**2. Who went to Jackson's Island?**

**A:** Tom and Huck and Joe Harper

**3. Why did they go to Jackson's Island?**

**A:**As an advernture/ to be and do everything they want

**4. What do the pirates do?**

**A:**Pirates attack and rob ships at sea.

**5. Raft is a.....**

**a. a thick rope b. a small round shaped boat c. a flat structure of wood used as a boat**

**A:** c. a flat structure of wood used as a boat.

**LETTER TO THE SUB-INSPECTOR OF POLICE**

M.Venkateswara Rao  
7-9, Subbaiah Colony  
Avilala  
Tirupathi

10 March, 2019

The Sub-Inspector of Police  
Police Station  
M.R.Palle  
Tirupathi

Sir

Sub: Request for trace out of my cousin Aneesh - Submitted - Reg.

I am the resident of Avilala, Tirupathi Rural. My cousin P.Aneesh son of Sri P.Sankar has not returned home since 8th March, 2019. He had gone to attend NEET Coaching class in the evening and not returned yet. He has been staying with me for the last two years and is a student of II Bi.P.C in S.V.Junior College, Tirupathi.

I have made all enquiries from his friends and relatives but have not been able to locate him. He is lean and slim, 5'ft 5 inches height, and fair in complexion. He was wearing a white shirt and blue jeans. I am enclosing his latest photograph, to help identify him. I would be grateful if you could kindly help me in finding him.

Thanking you Sir

Yours sincerely

*M.Venkateswara Rao*

(M. VENKATESWARA RAO)

LETTER TO COUSIN

22-4, Nehru Nagar  
6th Lane  
Main Road  
Guntur

16 June, 2019

My dear Udayasri

How are you? How are you studying? I received your letter and noted the contents. I felt very happy for you getting highest marks in your class. As you know, the Board of Intermediate Education has introduced the grading system in the results, instead of marks. It is a very good decision. It avoids tension from the students and removes unhealthy competition.

Now I have found that getting a good grade is not very difficult. If you attend the classes regularly and follow instructions, you can get a good grade. If you get more than 91% of marks, you are awarded 10/10 points in each subject. Based on the average of all subjects, your grading is fixed. There is no doubt that grades bring in several toppers and avoid committing of suicides of students for the sake of ranks.

I find that grades are good and encouraging and appreciate the BIE for introducing it. I suggest you to put in hard work and get quality education without feeling any tension of marks and ranks. Convey my profound regards to your parents and best wishes to your brother.

With love

Yours lovingly

XI) Write a short paragraph of about 8 lines describing the process

1x5=5M

**Describe the process of making red bricks.**

**OR**

**Describe the process of casting your vote in elections.**

**A: PROCESS OF MAKING RED BRICKS**

Process of making red bricks involves preparation of clay, moulding, drying and burrying in boxes. You need clay for the preparation of bricks. First of all we need pure clay and better to take from 200mm depth. Clean the clay of stones. Then convert the clay into lumps with earth crushing rollers by your feet. If your manufacturing of bricks is on a small scale and manpower is also cheap then you can go for hand moulding. The moulds are in rectangular shape made of wood or steel which are opened at the top and bottom. Now turn the lumps into bricks and let them get dried up. In this stage, the bricks will gain hardness and strength. The last stage is burning of the bricks at 1100 degree centigrade. If the heat is low, bricks Can't be strong. When they get cooled, you have red bricks ready .

**PROCESS OF CASTING YOUR VOTE IN ELECTIONS**

First, we have to ensure that our name is in the voters list. Then we have to get a voter slip from the ward member. Also we should have some other identity documents like Aadhar card, Voter card, Driving license, Bank passbook, Passport or any government authorized one. After having the slip and identity card, we have to go to the polling booth allotted to us. We have to stand in a queue. At the first bench, our name will be checked by the polling officials. At the second bench someone will make a mark on the left hand pointed finger nail with indelible ink. At the third bench, they will take our signature or thumb impression and give us a slip. If we give the slip to the person at the EVM, he/she will allow us to the ballet box. There, on the ballet box we have to press the button near to the symbol we like. Finally, we can see our vote in the WPAT.

**XII) Prepare a Resume based on the information given below.****1x5=5M**

 Interviewee : My name is Manohar Rao, Sir.  
 Interviewer : What are your qualifications?  
 Interviewee : I have an M.Tech degree, Sir.  
 Interviewer : Any previous experience?  
 Interviewee : No Sir.  
 Interviewer : I see. May I know the reason why you have selected this job.  
 Interviewee : Since my childhood I have been interested in Software profession sir.  
 Interviewer : Okay, we will inform you later.  
 Interviewee : In fact, it's a great opportunity for me. I'm always available sir.  
 Thank you very much, sir.

**XV) Read the following passage and make notes:****1x5=5M**

The economic system of any country is largely dependent upon the efficiency of its transport system. Without the help of a good transport system, the expansion in national and international trade would never take place. Broadly, the means of transport both for purposes of trade and social activity can be classified into three main divisions: land, water and air. We are, here, concerned with transport for trade. Of all the forms of transport, road transport has shown the greatest growth in recent years. Road transport is also used as a complementary means of transport. Road are indispensable links for carrying goods and people to and from railway stations, ports and airports.

Transport by road may be both vehicular and non vehicular. Non vehicular transportation includes both animal and man. Animals such as horse, mules and yaks are frequently used for carrying goods and passengers in hilly areas. Camel is the only means of transport in desert areas. Man is also sometimes used to carry goods. In hilly areas, porters and coolies carry goods on their backs and heads. This type of transport is generally used when animals, carts or vehicles cannot be used. Vehicular transport in developing countries includes the ancient bullock carts, as well as the modern automobiles. The invention of the automobiles has been of great significance to modern industry and commerce because of their high speed and low cost per kilometre. The introduction of the railways have been vital in the growth of industrialization. Railways are useful in carrying heavy and bulky goods over long distances. They are especially favoured because, unlike other modes of transport, they are unaffected by weather conditions.

Water transport is one of the oldest forms of cargo transport. Though it is slow, it is the cheapest form of transport. Water transport includes inland transport and ocean transport. Inland waterways are rivers and canals. While rivers are "naturally" created, canals are artificial waterways. Inland waterways are not always reliable. Sometimes rivers change their course abruptly, which may cause dislocation of traffic. In times of drought they may run dry. Ocean or sea transport is very important for the growth of foreign trade of any country, especially as it is cheaper than air transport. It is particularly useful for carrying bulky goods over long distances, especially when time is not the essential factor.

The greatest advantage of air transport is that it has reduced the time and distance barrier to greater extent. However, air transport is the costliest means of transport because of the high cost of planes, their operation and maintenance. It is generally used rather sparingly for carrying light freight.

**A: TRANSPORT SYSTEM - SOCIAL OR TRADE PURPOSE**

I. Land

a) Vehicular

i) Bullock carts

ii) Automobiles

iii) Railways

b) Non - vehicular

i) Man-Ex: Porters, Coolies

ii) Animals - Ex: Horses, mules, Yaks, Camels

II. Water- oldest, Cheapest

a) Inland

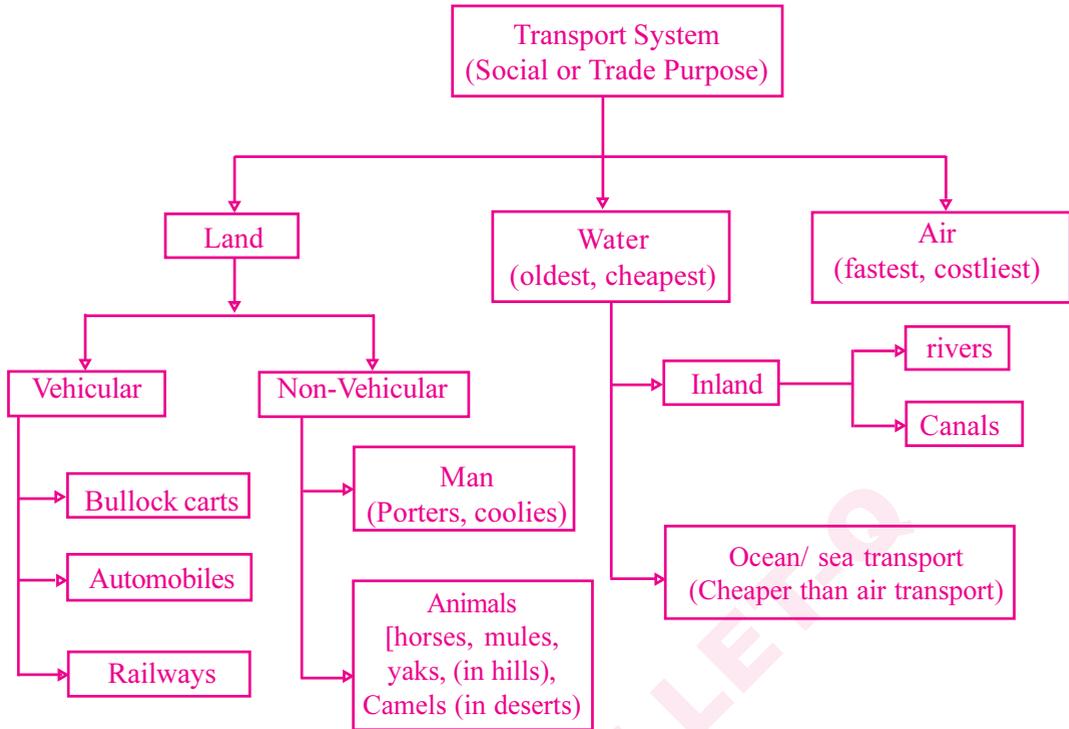

i) Rivers

ii) Canals

b) Waterland- Ocean / Sea transport- cheaper than air transport

III. Air- fastest, expensive

**[or]**

**XVI) Match the Words with their meanings/definitions.**

**5x1=5M**

**Column 'A'**

**Column 'B'**

- |               |       |  |
|---------------|-------|--|
| 1. revoke     | ( c ) | a. bursting away (sudden, curt)                          |
| 2. abrupt     | ( a ) | b. recall, bring to mind                                 |
| 3. spectacles | ( e ) | c. call back, withdraw, cancel                           |
| 4. evoke      | ( b ) | d. going against being social                            |
| 5. antisocial | ( d ) | e. glasses which allow weavers to see better, eyeglasses |
|               |       | f. having no life  |
|               |       | g. of being great in spirit, generous                    |

**XVII) Mark the stress for any five of the following Words:**

**5x1=5M**

- |              |                 |                 |              |                |
|--------------|-----------------|-----------------|--------------|----------------|
| i) dais      | ii) dangerous   | iii) decision   | iv) describe | v) development |
| vi) dialogue | vii) dictionary | viii) direction | ix) discuss  | x) education   |

- A:**
- |               |                  |                  |               |                 |
|---------------|------------------|------------------|---------------|-----------------|
| i) 'dais      | ii) 'dangerous   | iii) de'cision   | iv) de'scribe | v) de'velopment |
| vi) 'dialogue | vii) 'dictionary | viii) di'rection | ix) dis'cuss  | x) edu'cation   |
