JR ENGLISH - Section B & C

SECTION-B

VI) Read the following passage carefully and answer the questions that follow: 5 x 1 = 5

Instagram is the worst social media network for mental health and wellbeing, according to a recent survey. It was associated with high levels of anxiety, depression, bullying, sleep quality and body image and FOMO, or the "fear of missing out."

There were certainly some benefits associated with social networking for example, self-expression, community building and emotional support.

However, young people who spend more than two hours a day on social networking sites are more likely to report psychological distress. "Seeing friends constantly on holiday or enjoying nights out can make young people feel like they are missing out while others enjoy life," the #Status Of Mind report states. "These feelings can promote a 'compare and despair' attitude."

Social media posts can also set unrealistic expectations and create feelings of inadequacy and low self-esteem. This may explain why Instagram, where personal photos take centre stage, received the worst scores for body image and anxiety. As one survey respondent wrote, "Instagram easily makes girls and women feel as if their bodies aren't good enough as people add filters and edit their pictures in order for them to look 'perfect'."

The more social networks a young adult uses, the more likely he or she is to report depression and anxiety.

Tips to reduce social media consumption: 1. Set time limits 2. Turn off notifications
3. Replace social media with hobbies like reading, playing, exercising

QUESTIONS:

1. According to the passage, what is the likely outcome for a young adult who uses multiple social networks?

A: _____

2. List two tips to reduce social media consumption mentioned in the passage.

A: _____

3. According to a recent survey, which social media network is worst for mental health and wellbeing?

A: _____

4. What does the term FOMO stand for?

A: _____

5. State True or False: Young people who spend more than two hours a day on social networking sites are less likely to report psychological distress.

A: _____

VII) Read the following passage carefully and answer the questions that follow: 5x1=5

We must not to be content with mere political democracy. We must make our political democracy a social democracy as well. Political democracy cannot last unless there lies at the base of it social democracy. What does social democracy mean? It means a way of life which recognises liberty, equality and fraternity as the principles of life. These principles of liberty, equality and fraternity are not to be treated as separate items in a trinity. They form a union of trinity in the sense that to divorce one from the other is to defeat the very purpose of democracy. Without equality, liberty would produce the supremacy of the few over the many. Equality without liberty would kill individual initiative. Without fraternity equality and liberty will be no deeper than coats of paint."

QUESTIONS:

1. How can political democracy last, according to the passage?

A:

2. State True or False: The principles of liberty, equality, and fraternity are to be treated as separate items in a trinity.

A:

3. What does social democracy mean?

A:

4. Without fraternity, what would be the outcome of liberty and equality?

A:

5. What would happen if equality existed without liberty?

A:

VIII. Represent this data by a bar graph**1 × 5 = 5 M**

At a sports complex, the number of participants in different activities was recorded over four days. The data is as follows:

Monday: 35 played basketball, 50 played tennis, and 25 used the gym.

Tuesday: 40 played basketball, 55 played tennis, and 30 used the gym.

Wednesday: 45 played basketball, 60 played tennis, and 35 used the gym.

Thursday: 50 played basketball, 65 played tennis, and 40 used the gym

Based on this data, draw a bar graph representing the number of participants in each activity over the four days. Use different colours for each activity to ensure clarity.
